

## Letter of appreciation of Electronic Air Cleaner

My laboratory dealing with wastewater treatment work the smells and the dust content is excessively high after installing the Electronic Air Cleaner by **Airwave Pte Ltd** the air quality is extremely good that we can breathe clean air.

Electronic Air Cleaner provided clear and timely answers to all our-air-quality problems. The vendors went beyond to ensure the information needed to make an educated purchase decision. It is evident they care about both their product and their customer. I would highly recommend them.

Best Regards
